OR

(b) XYZ Limited has an average selling price of Rupees 50 per unit. Its variable cost is Rs.15 per unit, and fixed costs amount to Rs.8,00,000. It finances all its assets by equity funds. It pays 40% tax on its income. PQR Limited is identical to ABC Limited, except in the pattern of financing. It finances its assets 50% through equity and 50% through debt, interest on which amounts to Rs.2,00,000.

Determine the degree of operating financial and combined leverage of 1,00,000 units are sold for both the firms.

4 (a) Bush Corporation wishes to buy a new machine for its modernisation programme. Company has two options, and the cost of both the machines is Rs.8,00,000, with an estimated life of five years and no salvage value. It is estimated to generate the following stream of earnings before depreciation and tax.
Assuming depreciation as per SLM method and tax rate of 40%, find out.
Pay back period of both the machines and advise the company as to which machine it should buy.

OR

Jagrut Times is considering a proposal to install a newspaper vending machine on 24 hours basis.
The required investment for the same is Rs.20,00,000 and the expected earnings before depreciation and tax is as following:

<table>
<thead>
<tr>
<th>Year</th>
<th>EBDT</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>3,00,000</td>
</tr>
<tr>
<td>2</td>
